## About

As a Junior React Developer, I specialize in creating interactive and user-centric web experiences. My expertise lies in React, JavaScript, TypeScript, HTML, and CSS. I'm passionate about crafting innovative solutions and am dedicated to excellence. Let's connect and create something extraordinary together.

## Experience

### **Independent React Developer 2022-Jun - Present**

Actively engaged in self-initiated React and TypeScript development projects to enhance expertise and proficiency. Created a diverse portfolio of projects, including:

- **Portfolio:** Created a minimalistic portfolio website with React and TypeScript, centered around my background and experience.
- **RealTime App:** Designed and built a real-time application with features like live chat and data synchronization
- **To-Do List:** Created a task management application with features for adding, editing, and tracking tasks.
- **Accordion:** Implemented an interactive accordion component for dynamic content display
- **Rate Card:** Designed a rate card application to estimate project costs and pricing.
- **Tip-Calculator:** Built a tip calculator application to assist users in calculating tips for services.
- **Menu List:** Developed an interactive menu list using vanilla JavaScript, HTML, and CSS for displaying food items.
- **About Tab:** Created an about tab component with HTML, CSS, and JavaScript to provide information about a subject.

## Skills

React	HTML5	Visual Studio Code (VS
TypeScript	CSS3	Code)
Vanilla JavaScript	Git	

## Courses

- **rs:school** - React educational course participant.
- **Udemy:** React and JavaScript Courses.
- **BitCamp** - Georgia: React Courses.
- **Academy of Digital Industries:** HTML, CSS, JavaScript.
- **FreeCodeCamp:** HTML, CSS, JavaScript.

## Languages

Georgian(Native)	English B2+	Russian A2
------------------	-------------	------------

## Aducation

**Georgian Technical University:** Civil Engineering Bachelor's degree - With Honors.
